Directions:

- 1) Use cut file provided to cut out the vines and flowers. Layer 1 will be the billiard color and layer 2 ruby red. The size for both is 2.06 by 8.68 the ruby red color just flowers is using the shift key. From Holiday Cake Cartridge, I used the flower vines in the 3rd row 4 in from the right side.
- 2) Transfer the red pieces on top of the green vines where the flowers go. Cover up as much of the outline as possible.
- 3) Cut the second vine in half and piece it where you want it on both sides to create a vine that goes the length of the front of your Cricut.
- 4) Using Your transfer paper transfer the design to your Cricut
- 5) Add gold accents with your leafing pen.
- 6) Use a rolled flower with bling in the middle of the large center flower. My flower is from Prima
- 7) Follow around the whole design with rhinestones. I used the Say it in crystals swirls clear
- 8) That is all there is to it and you will have your very own tricked out Cricut.

If anyone would like a custom Trick your Cricut Kit. I will be taking orders.
